

It all fits. Let us show you how!

Free professional development

Spend an hour with us and you will leave knowing how to apply to your lessons the new Kansas standards for History, Government and Social Studies; College and Career Readiness ELA standards; and Social, Emotional, and Character Development standards.

Spend 90 minutes and you will come away with one of your own lessons revised to address the three new standards.

Our programs address effective instruction techniques used in teaching Kansas and U.S. history, economics, geography, and civic/government. We emphasize teaching with primary sources and provide the tools to put them to use. All participants will receive free curriculum materials from the Kansas Historical Society.
