Welcome to the Kansas State Capitol!

This classically-inspired building is Kansas' most important architectural treasure as well as the working offices for the governor and legislators. Completed in 1903, the Capitol is 17 feet higher than the U. S. Capitol in Washington, D. C. Restored to its early 20th-century appearance, the Capitol features a dramatic array of art, sculpture, and colorful Kansas history within its walls and on the grounds.

The Kansas State Capitol Visitor Center is the gateway to the Capitol. The visitor center includes the Capitol Store, information desk, classroom, auditorium, and exhibits.

Historic tours highlight the events that happened in the building and provide details on the architectural history. Dome tours provide a unique bird's-eye view of Topeka.

Enjoy your visit!

- Leaning on railings is not permitted; do not drop items over railing
- Large-heeled shoes are not permitted
- Do not write on any dome surface
- Inform guides at any point if a group member does not wish to proceed

Photographs can be taken in any part of the building except when legislators are meeting in the House, Senate, or a committee meeting room.
